Cork stopper for sparkling wine

## Description

Innovative cork stopper approved by F.D.A. and C.S.I, realized by a fusion between nature (cork) and new technologies application (F.D.A. and CSI certified alimentary elastomer).

The cork body gives a perfect adherence to the glass and an amazing holding force especially for sparkling wines. Technical and mechanical features of this cork stopper guarantee a perfect extraction force, thanks to the certified elastomers that perfectly fit with cork cells. Our washer is injected through the heat treatment without using other adhesives.

Thanks to this innovation we were able to create a barrier that prevents all substances that may impair the product. Furthermore, this cork stopper ensures a great extraction force, i
